## What are your desired outcomes for a Utah ELP?

## What are your desired key topic areas or areas of focus for the ELP?

anthropomorphizing)

What information about your region of the state should be included in an ELP?

Everything moves downstream (what happens in mountains moves through cities moves to rivers and GSL)

Great Basin (& Great Salt Lake) as a closed basin

Urban development (its impacts but also that nature is in urban environments)

Human/natural impacts on air quality (Salt Lake Valley +)

and Cache Valley

How to protect/preserve Utah environments. How climate change is impacting Utah environments (Mountain, desert, wetland, etc.)

> The Bear River is the largest source of freshwater to the Great Salt Lake

We want to ensure this process is inclusive. Who else should we reach out to? Where possible, provide contact info.

Some states have ELPs, some have Environmental Literacy & Natural Resource Plans. What are your ideas for what Utah's ELP should be called, if any?

Utah Environmental Education Plan or Utah Outdoor Education Plan Paleozoic to
Pleistocene to
Paiute to Pioneer:
Teaching Kids of
Utah Environments

Outdoor Action Plan

I feel like a literacy
plan is something
you look at and put
on a shelf, but an
action plan is
something you pick
up and do
something with

U-OUT (Utah Outdoors Uplifting Teachers)
